

**ATC-45 SAFETY EVALUATION OF BUILDINGS AFTER WINDSTORMS AND FLOOD**

DATE: THURSDAY, APRIL 6, 2006  
TIME: 10:45-4:30  
LOCATION: BIRMINGHAM MARRIOTT  
3590 GRANDVIEW PARKWAY  
BIRMINGHAM, ALABAMA  
205-968-3775

**Seminar Registration Form**

(Lunch provided to all seminar registrants)

Advanced Registration:

- SEAoAL \$125.00 x \_\_\_\_\_ = \$ \_\_\_\_\_  
 Non-Member \$160.00 x \_\_\_\_\_ = \$ \_\_\_\_\_

Late Registration (After April 4th):

- SEAoAL \$150.00 x \_\_\_\_\_ = \$ \_\_\_\_\_  
 Non-Member \$185.00 x \_\_\_\_\_ = \$ \_\_\_\_\_  
Total = \$ \_\_\_\_\_

**ATC-45 Manuals** will be for sale at the seminar or may be obtained by visiting ATC's website at [www.atcouncil.org](http://www.atcouncil.org). Hotel accommodations are available at the Birmingham Marriott and reservations can be made by calling 205-968-3775. Please give them the code SEAoAL.

**Make checks out to SEAoAL.** If paying by credit card please use the following form:

Credit Card Type \_\_\_\_\_  
Name on Card \_\_\_\_\_  
Account Number \_\_\_\_\_  
Billing Address \_\_\_\_\_  
Zip Code \_\_\_\_\_  
Security Code \_\_\_\_\_  
(3 digit code on the back of the card)

Name \_\_\_\_\_

Address \_\_\_\_\_

Phone \_\_\_\_\_ Email \_\_\_\_\_

## **ATC-45 Safety Evaluation of Buildings after Windstorms and Floods**

As the nation responds to the disastrous effects to the Gulf Coast region by Hurricane Katrina, SEAoAL and other organizations have been organizing volunteers to provide damage assessment expertise to the affected regions. The newly developed **ATC-45 Safety Evaluation of Buildings after Windstorms and Floods** is an essential tool for engineers, safety professions, local EMAs, contractors, and volunteers responsible for evaluating wind and flood damaged buildings. ATC-45 is patterned after the widely-used standard for post-earthquake safety evaluations of buildings after earthquakes, ATC-20.

The result of the ATC-20/45 safety evaluation is a Red, Yellow, or Green Building placard that informs the building tenant, owner, and general public of the safety of the damaged building.

This training seminar is targeted for building officials, building inspectors, engineers and others responsible for the safety evaluation of buildings. Participants in this training seminar will be instructed on the contents of the **ATC-45 Field Manual: Safety Evaluation of Buildings after Windstorms and Floods** that was published by the Applied Technology Council in August of 2004. The ATC-45 Field Manual provides guidelines and procedures to determine whether damaged or possibly damaged buildings are safe for use after winds storms and/or floods or if entry should be restricted or prohibited. Formatted as an easy-to-use pocket guide, the manual gives advice on evaluating structural, geotechnical, and nonstructural risks. It also gives advice on how to rate the safety or significance of certain types of damage. In addition, the Manual covers related topics of interest to safety personnel, including field safety issues and guidelines for dealing with owners and occupants of damaged buildings.

**Copies of ATC-45 may be purchased at the seminar or are for sale on the ATC website:  
[www.atcouncil.org](http://www.atcouncil.org)**

**Agenda**  
**April 6, 2006**

**10:45-11:00**

*Registration and Sale of ATC-45 Manuals*

**11:00-11:45**

*Lunch*

**11:45-1:45**

*ATC-45 Seminar*

**1:45-2:00**

*Break*

**2:00-4:30**

*ATC-45 Seminar*

**4.5 PDHs**
