

Want to learn more about pervious? – April 18, 2008 – Irondale, AL

Pervious Concrete Workshop and Certification Class

Alabama Concrete Industries Association

Course Overview

The Pervious Concrete Workshop and Certification Class will provide greater insight into pervious concrete production, pervious concrete design, and in the field placement techniques. The program will include a lecture and placement of a pervious concrete section.

Who Should Attend

The program has been designed for architects and engineers, contractors, inspectors, and employees of the ready mix industry.

Education Credits

The ACIA is a register AIA provider and will be providing credits to architects. The association will also be providing certificates for attending engineers.

Location

Directions will be emailed upon registration.

About the Instructors

Matt Offenburg – Matt is widely known as one of the country's experts on pervious concrete. He currently serves as the Chairman of ACI 522, Pervious Committee. He also serves as Secretary of ASTM C.09.49. Matt is the Southeast US Technical Service Manager for W.R. Grace and Company.

Dale Fisher – Dale Fisher has been involved with more pervious placements than any contractor in the Southeast. Dale's many years of experience have provided him with great insight into what is necessary to insure a successful pervious concrete project. Dale is President of PCI Systems of Atlanta.

Cost

\$60 – Includes lecture, lunch and Pervious Workbook

\$145 – Includes all above plus fee to sit for test
