

Finishing**Forum**

hosted by

Georgia-Pacific
Gypsum

Georgia-Pacific Gypsum revolutionized the construction industry more than 20 years ago with the introduction of DensGlass® Sheathing. This same technology moved inside when we launched DensArmor Plus® interior panels in 2002. Dens™ Brand fiberglass mat technology can help you save time and money during the construction process because our panels can be hung before dry-in due to their superior moisture and mold resistance.

This presentation will be hands-on, showing all levels of finish on fiberglass mat interior panels.

Tuesday
February 16, 2010
11:30 a.m.-1:00 p.m.

Lunch will be provided.
