

LEED for Schools Technical Review

Are you ready to enter the rapidly growing green building market?

Attend the LEED® for Schools Technical Review presented by the U.S. Green Building Council. Gain the knowledge needed to maximize green building practices for improving school design and performance.

WHY LEARN ABOUT LEED?

Ask any of the 5000 building owners seeking LEED certification right now. School districts are demanding green facilities that save money while protecting the environment, improving health and performance of students, and creating a better learning environment. The USGBC's LEED for New Construction Green Building Rating System™ is the nationally recognized rating system for green buildings. LEED is already being used by green building projects in all 50 states, and the market continues to grow.

WHO SHOULD ATTEND?

Industry professionals and project teams seeking to increase their understanding of the LEED for Schools Rating System and green building strategies, benefits and resources:

- Architects
- Consultants
- Engineers
- Developers
- Contractors
- Designers

WHAT'S COVERED AND LEARNING OBJECTIVES

- Understanding credit categories of the LEED for Schools Rating System
- Be familiar with available tools for implementing LEED on school projects
- Describe integrated design principles and how they help achieve LEED points
- Green building costs and benefits of healthy schools
- Use LEED Online to document your project
- Understand the commissioning process
- LEED project case studies and strategies for schools
- Know where to go for additional resources and support
